Personally I feel this is far too long, detailed and lengthy for those experienced clinicians/vaccinators especially given current NHS pressures. As such I would not recommend to my colleagues for this reason unless they had time. I would recommend a shorter refresher be offered to the latter mentioned groups. |

I understand a lot of information to cover. Maybe could be improved by dividing sessions. It could be more focused on the clinical and practical side of vaccines delivery |

As I am no longer clinical and have never delivered/administered Flu vaccines, some of the vaccine information went over my head, but I understand for those that do administer it is vital.   |

I am not suggesting we don't need to have it refreshed- but maybe every other year- a full session and alternate years, a more condensed one. Just a thought. |
