Would you recommend this course to colleagues?	Yes: 17	No:		Not Answered:		
How will your practice change as a result of completing the course?						
Applying EBP, discuss best practice with patients and use better treatment (EB) for patients						
Think about asking GPs to zoladex from prostap						
Not necessary to use medicines prior to injection. Injection facts and figures, thank you						
Ensure patients attend appts on time 12/52. If there is a choice of medication - zoladex						
<i>I have more knowledge on the subject of prostap cancer and treatment</i>						
<i>Start giving under supervision</i>						
<i>Greater understandiof zoladex</i>						

<i>Yes I'm more informed and now have a better understanding of the research behind it</i>							
<i>It gave me a better understanding about the difference between zoladex, prostap and ...</i>							
<i>Have more confidence giving</i>							
<i>To continue</i>							
Additional comments:							
<i>Pace: could have been 1/2 hour longer as ran out of time</i>							
<i>Slides please</i>							
<i>Easy listening, great lecture style, learnt a lot</i>							
<i>Gave me food for thought. Made me want to research the evidence</i>							
<i>Good speaker</i>							
<i>Many thanks for a very interesting discussion/teaching education</i>							
<i>Absolutely excellent, Ash was very very good at getting his point across and in the end all his questioning approach made</i>							
<i>Could benefit from a full days training. Training is required for new nurses that will be giving zoladex</i>
