How will your practice change as a result of completing the course?						
<i>More confidence with HRT prescribing - initiating doses. Will prescribe testosterone. More confident explaining risks to patients.</i>						
<i>More confident about prescribing treatment</i>						
<i>More confidence in HRT and options available. Role of testosterone in menopause.</i>						
<i>Hopefully give me confidence to start looking at menopause - assessing differentials and considering menopause as diagnosis.</i>						
<i>I feel much more confident in assess and diagnosing and commencing HRT</i>						
<i>Give me confidence in my ANP role</i>						
<i>Discuss risks and emphasise benefits most confidently</i>						
<i>I will utilise all the information I have learnt today</i>						
<i>It will change all of my day to day assessments including menopausal symptoms, GSM</i>						
<i>Change day-to-day practice.</i>						
<i>More insight and knowledge</i>						
<i>More informative to menopausal women. Let patients have a say in medication choice</i>						
<i>Increased confidence</i>						

<i>Feel more confident in prescribing and consulting patients</i>							
<i>This will now enable me to provide more information to the many women who have attended surgery with menopausal symptoms & feel they have someone they can talk to and help with their symptoms</i>							
<i>More in-depth knowledge and ability to explain to patients. Confidence in prescribing</i>							
<i>Much better awareness of symptoms peri/menopause, use of testosterone, find out locally and in my GP surgery what we already provide for patients</i>							
<i>Take information back to the surgery and discuss with partners. Raise awareness of signs/symptoms/treatments use of knowledge to improve patients care.</i>							
<i>New knowledge, Able to identify symptoms/triggers, enhance history taking</i>							
<i>Venue / Location: Very good, only issue was traffic on main road</i>							
<i>Think about taking detailed hx and offering fx tailored to patient. How to assess risks and not decline her without assessing. Risk of breast ca, clarifying.</i>							
<i>Much more confident about recognising perimenopause and menopause and initiating treatment</i>							
<i>Increased confidence in prescribing. Review patients on HRT</i>							
<i>Learnt a lot - definitely change in practice</i>							
<i>Recognising sx associated with perimenopause and finding evidence based information to help make more valuable choices about their treatment</i>							
<i>Venue / Location: Water not refilled regular</i>							
<i>Delivery: Passionate / informative</i>							
<i>Pace of forum: More time maybe?</i>							
<i>Forum content: Very informative</i>							
<i>Overall view of course: Really enjoyable</i>							
<i>Very motivating and informative. Very glamorous speakers are advert in itself for HRT, loved it!</i>							
<i>I will hopefully feel more confident to discuss HRT, it has also made me think about other symptoms which I may not necessarily related to menopause.</i>							
<i>Excellent comprehensive course. I know I feel more confident in discussing menopause and treatment choices. Also useful information regarding contraception/menopause</i>							
<i>Prescription of testogel and testosterone - certainly change my practice</i>							
Additional comments:
