

Feedback/Evaluation		Scale: 1=poor 5=excellent				
Course Name:	BCWB Foot care					
Date:	29.06.2022					
Time:	12.30 - 4.30					
Tutor:						
Venue:	Dudley Golf Club					
No: of Delegates	82					
Attendee's CCG						
Number of Evaluation Forms	14					
Number of Online Evaluations Forms	15					
		1	2	3	4	5
Venue / Location			1	2	6	5
Tutors Delivery					5	9
Pace of Course				1	4	9
Course Content					4	10
Overall View of Course					5	9
Would you recommend this course to colleagues?	Yes: 14	No:	Not Answered:			
How will your practice change as a result of completing the course?						
<i>I now have a deeper understanding of the diabetic foot including Charcot and the importance of early intervention</i>						
<i>More detailed examination of the foot</i>						
<i>The education given today will raise more awareness of Charcot to pass onto colleagues</i>						
<i>New to GP Practice, today's study session has been extremely informative to equip me with knowledge and skills regarding diabetic foot care and signpost to relevant areas of learning and other multidisciplinary teams</i>						
<i>Awareness of acute diabetic foot pathway. Think Charcot</i>						
<i>I have taken a lot of information and different referrals relevant to the training back to my team to promote FRAME</i>						
<i>I'm a new practice nurse - found information and booklets from reps invaluable</i>						
<i>To do foot exam in each biab patient</i>						
<i>It would be very helpful for me to see the patient and convey the message to all of our staff</i>						
<i>Have given me information much more now in assessing feet as I'm a new PN. Some practical would also be good</i>						

Additional comments:							
<i>Fantastic wealth of knowledge shared with the delegates and my knowledge has increased as a result, thank you!</i>							
<i>Importance to rule out Charcot in the foot to prevent rocker bottom and complication ??????</i>							
<i>Very good training and knowledge of clinicians, brilliant</i>							
<i>Very useful, Thank you</i>							
<i>Could we please carry out training and practice appropriate foot assessment, locating foot pulses, Doppler training, ABPI, as I feel most surgeries would benefit from this training</i>							
<i>A single point of contact to improve pre-presentation email and schedule and post code and other meeting details needed (SPEAKER)</i>							
<i>Will change my presentation - focusing on primary care teams</i>							

Which session in you attend?	How did you find this hybrid meeting?	If not, please state why	How was the trainers delivery?	How was the pace of the session?	How was the training content?	Would you recommend to colleagues?	If not, please state why	Overall, how would you rate this training?	Any additional comments:
Virtual	5		5	5	5	5 Yes			5 Great hybrid event, more of these in future will be useful as it clearly works!
Virtual	3	Difficult to hear at times, s	5	5	5	5 Yes			5
Virtual	4		5	4	4	5 Yes			4 Would of been better if sound could of been louder as wasn't that loud for virtual. Thank you though very interesting and lots of valuable information
Virtual	4		4	4	4	4 Yes			4
Virtual	5		5	5	5	5 Yes			5
Virtual	5		5	5	5	5 Yes			5 Really good training loads of information and very keen to shadow a diabetic foot clinic to learn more thank you
Virtual	2	because it was hybrid onli	2	2	2	4 Yes			3 would be better if it was solely online or solely face to face
Virtual	5		5	4	4	5 Yes			4 difficulty at first attending by on line, but once sorted very informative/good course.
Face-to-face	5		4	5	5	4 Yes			4 Should be rolled out to all Healthcare professionals in Black Country
Virtual	3		3	3	3	4 Yes			A little bit disjointed at the beginning, but got better. Some parts were very difficult to hear and there was a lot of coughing which drowned out some of the speaking. As a HCA I really wanted to see how to do the foot check and that was one of the videos that didn't display properly.
Virtual	5		5	5	5	5 Yes			The speakers were on a whole very good but occasionally couldn't hear what they were saying. Hopefully I can have the slides sent through via email as I am keen to keep a copy of the pathways (Outley) and to arrange a shadow session if possible. Thank you for the information.
Face-to-face	5		5	5	5	5 Yes			5 The first two presentations are the most relevant in a primary care setting- it would have been more useful to allocate more time to them
Virtual	4	Couldn't here some of the	4	5	5	5 Yes			Enjoyed the whole atmosphere of the training, the way it was delivered and the knowledge of all clinicians delivering. And I think that more sessions like this would be beneficial to more staff delivering diabetic care.
Virtual	4		4	4	4	5 Yes			4 Should be either virtual, or face to face. Not sure both worked that well
Face-to-face	4		4	4	4	4 Yes			5
									4 Very informative interactive session from all the different regions
