How will your practice change as a result of completing the course?						
Be more communication between staff and policies put into place						
Considered auditing - awareness of risk management implemented						
More aware of health and safety in and around work						
Review of all H&S practices, improved H&S communication with staff, record keeping						
Hoping to make work H&S compliant						
Will implement areas of learning from todays course						
Increased awareness. Addition to training & applicable to the work place						
I have a lot of work to do but it has been very useful						
Review policies and procedures inline with learning from course						
Additional comments:						
<i>Felt rushed towards the end. Too many slides and modules</i>						
<i>Pace - too fast in allocated time</i>						
<i>Pace - a lot to get in but time considered for writing etc</i>						
<i>Content - thorough</i>

How will your practice change as a result of completing the course?						
More awareness re risk assessments & H&S obligations as an employer						
Request that more training is done in this way rather than online						
Greater knowledge awareness						
It has given me all the information I need being new to the role, I've come out understanding						
The course aimed at Practice Managers should be on managing H&S rather than H&S in the workplace i.e. should be more on conducting risk assessment & managing this process						
Greater understanding of the importance of Ras & training- I will do more Ras & share with relevant staff. Ensure all staff have completed training appropriate to their role						
Additional comments:						
<i>Would be useful to know howto do a risk assessment & how to manage H&S e.g what if there is an accident-duties obligations of the employer</i>						
<i>Very happy going into learning knowing nothing,came out happy with good knowledge</i>						
<i>Tutor-Excellent, broke everything down</i>						
<i>Pace-slow start due to tech difficulties</i>						
<i>Content-very detailed</i>						
<i>Content-based on the course title it was good but not the right course for PMs</i>						
<i>Pace- could have been a little quicker @ points but likes that there was plenty of time for questions</i>						
<i>Content-would have appreciated a tailored approach to GP setting but excellent content</i>						
<i>Pace-could have been quicker</i>						
<i>Content-a lot irrelevant & would have been better if more related to our jobs and the trainer made aware beforehand of what our roles are</i>
