Tell us what you liked best about this event?

Good up to date information on sepsis.

The reminder on how to recognise sepsis and the use of the NEWS Scoring

Able to update myself from home

The presentation on sepsis as a whole was comprehensive well put nice refresher as well as update

Informative and current.

The content was up-to-date and the presenter was extremely knowledgeable and passionate about the subject being delivered.

Presentation

Excellent update, well presented by Lynn Carpenter.

The entire presentation

Concise, to the point, revisiting pathophysiology. Reinforcing Red Flags. NEWS 2

The presentation being on Teams made it more accessible for me - I work night shifts and easier to attend on line than in geographical locations

The presentation was clear and very informative. I did not know how severe the long-term effects of sepsis can be.

The event was efficiently organised

Is there anything we could have done even better?

No, I really enjoyed the content.

Not at the moment

No

No

No

N/A

No

No

Nothing - was a very comprehensive learning event

A bit more opportunity to ask questions. the question I wanted to ask didn't really come to me until the end.

The section about screening tools felt a bit rushed but I think the basic message was about the lack of a definitive tool.

Maybe think about adding a few words aimed directly at community nurses and practice nurses to be on the lookout for sepsis.

August

Tell us what you liked best about this event?
Very informative and well presented
i learnt more about diabetes
Very informative
Very good explanation.Easy to understand
It was presented in simple language, easy to follow with detailed information.
Very informative thank you
Very useful practical information
all
I have a better understanding of HBa1c
Whole session was productive
Very informative and well presented
Excellent presentation, speaker was clear and concise, explained things really well thank you
Scenario
The set up was very good. Lectures had good knowledge of subject.
The PowerPoint was very easy to follow
Everything
Friendly atmosphere and well researched content
None
comprehensive
Case study was an added advantage
Excellent to receive the latest diabetic information from very knowledgable speakers.
I liked how many different speakers had lots to say about relevant topics around diabetes. It has been very informative and I will be attending the next one.
very informative
Very informative and a chance to ask questions through out the session
The presentation was amazing
Diagnosis
Informative yet relaxed, felt comfortable to ask a question if I wanted to.
Very informative
Simple to understand. Well presented
Diagnosing diabetes
Very informative I have learnt how diagnostic testing for T2 diabetes is carried out. I have also learnt about the drugs used to control diabetes and the importance of enabling patients to make life style changes.
Very informative session
Presentation
The presentation
Clear information. Very patient focused.
All the event
Easy to understand
Easy to join in and take part if you want to, online event is good as its saving on air pollution and caring about the environment, can take part from wherever you are and your not late as got lost to find the venue! I found it quite interactive and user friendly on my tablet , I'm new to RCN and I'm REALLY impressed by these brilliant events, Thankyou all 🙌
All good and really easy to follow and understand.
Very relavant for my job role as a nurse on medical wards with pre diabetes & educating patients.
The presentation was well structured and easy to follow
Session really clear and informative excellent presentation of th e session. Advised of good links and resources
Deeper understanding gained on HBA1C, really enjoyed the case studies
online learning is suitable for working from home.
I am not normally a fan of pie charts but the ones that where used in this session where a very usefull and informative way of clarifying the information
It was very informative
Easy to log on, understand and ask questions
Everything.
Very easy to follow logical
It was very enriching, and comprehensive too.
It was interesting and comprehensive

Is there anything we could have done even better?

Tell us what you liked best about this event?
Very interesting
Very informative
Always informative clear and easy to understand. Despite delays today Heather was fantastic presenting the information as always in way easy to understand. Thank you Heather.
Slides
The various mode of action for the different medications
informative
all session was productive
Online event
Learnt about SGLLT2
Easy to understand
.
Informative and a nice follow on from the other sessions
Very informative
Answered the questions very quick!
Explanation of newer drugs was useful.
the topic
The whole topic is relevant to my role as a nurse, i like the fact that they giving some example of the drugs in different categories.
The informative information presented in an understandable manner
Very informative
the content of the teaching
Information about newer medications being used in the treatment of Type 2 Diabetes
Informative, friendly session
easy to understand and informative
All session was useful
Learning how the drugs work differently
Relevant information for my job role.
Answered the questions quickly
Information on diabetes
Relevant to practice
That it was short and comprehensive
Easily accessible with being RCN member, great as online.
The ability to participate via distance learning via teams
Learnt new update for treatment of t2dm
Information was useful. Love that it's online so easy to access
More in depth of diabetes
easy to follow slides and informative
Overcoming technical problems
the pace and being able to ask questions via the chat....
Information on medication therapies
it li always good to learn more about Diabetes as it is such a big topic.
Easy to understand and explained well. Good slides used
helps to ne informed with up to date information
Informative

Is there anything we could have done even better?
Technical problems
None
No
No suggestions
Faster technical support during IT system Failure
if everything could be a bit more planned
all perfect
Can't think of anything, apart from technical glitch
Good session.
Prepare slides earlier... before the session starts
.
No
I found it frustrating with all the technical difficulties. I felt if the speaker was better prepared and organised it would have gone more smoothly.
Well prepared before starting.
I would have liked more depth on insulin and maybe some case studies to go through in relation to how it might be prescribed and used in conjunction with other diabetes medication, but I appreciate that the technical difficulties impacted on the time available.
only the technical problems on this session that consume the time of training
it would be if we can start on time next time.
Nothing
No
do these teaching more regularly as it is a very interesting subject.
Unfortunately there were some technical issues
Unforeseen technical issues meant a lot of time wasted unfortunately
no
No comments
Just need to be ready to start on time
Technical issues caused a delay at the start of the session.
speaker needs to be well prepared
Good despite technical issue which was eventually overcome
Be organised
IT issues.....but got sorted in the end
Can't think of anything.
No, please could we have more courses like this.
Please could I have course notes and certificate emailed to me directly
if there is possibility to check technical issues prior to starting the course.
It was so disorganised I began to lose interest. It might have been better delivered by the chap the presenter kept asking to confirm her information was correct/current
None
IT issues this session were troublesome
No
Sorry but got to say it..... IT/slide issues
IT not ideal, but difficult I know!
Not sure. I would have to go through all the material again first.
No
nil
NA

Not happy? How can we improve this?
Na
Carry on
No
No comments
NA
Booking process was easy
no comments
N/a
Technical issued issues were resolved expediently.
Prepare slides in advance
.
Quite happy
NA
I am happy
Booking doesn't always register on-line but you don't realise it until no invitation comes. I have had to re-book just before the session starts.
The slides and certificates from the last session have not been sent to me.
The evaluation forms can be difficult to access sometimes.
its the tecnical problem of the speaker and hopefully next time the gadgets will be fully charged.
I'm happy with the content of the topic to day.
N/A
Happy
more sessions as it helps for CPD AND Revalidation
N/A
No problems
happy
No concerns
Nil
N/a
non
All good
Very happy
IT system not good...issues with hearing talk
N/a
No problem
happy
Disappointed that the presenter didn't check her equipment before the event. Seemed like a waste of 40 minutes during the first half
Very happy
none
Happy
n/a
Just the IT issue
I'm happy enough.
Happy with online booking easy to use and access
nil
NA

In order to provide the best possible learning opportunities during these unprecedented times please add any suggestions that you feel we could consider. Thank you.
Long covid
Thank you
No
No suggestions
Recorded sessions which can be accessed by those who missed meetings
mentioned in last evaluation
no suggestions
Brilliant that we can take part online
No suggestions.
NA
.
No further suggestions currently
Bite size recaps on things like lung disease, kidney disease, cardiovascular problems etc.
Not at the moment
Virtual events have been very good - very happy with them on the whole - thanks!
Wish there more time for question and answer especially if there is technical problems like on this session.
nothing at present.
An agenda with notes to research before the presentation
.
more sessions please
Women's health eg Early pregnancy issues, FGM etc
No changes (technical issues aside)
learning to remain online
No suggestions
I would like a pre assessment group.
N/a
non
Find all topics selected useful
Love the Teams approach, practical,easily accessed, no concerns about parking
Improve IT systems?
Continue with online events please.
More course like this one please
none
Love that the course is online. Makes it much more available to us all as we don't have to drive to the event and spent a whole morning there. Also have the opportunity to look things up in the computer of my own home when I wouldn't want to take my laptop to a meeting
More online training
none
None
I actually prefer these being zoom as we can still interact and we haven't got the hassle of traveling to the venue and the expense of parking (Heartlands Hospital is where I normally go to these and the car parking charges are too high)
Improve IT systems??
Online is the best way at present until restrictions are removed.
nothing
nil
NA
